
Nonzero differences alone do not establish effective transport
a All seven cuts; downward positive
Paired cumulative salt difference (10^{-15} m)
20.10 mm
49.54 mm
99.89 mm
1.03 mm
1.95 mm
5.04 mm
9.87 mm
Physical time (h)
b Relative excess transport
1e−9
Delta C / initial M0 regional inventory
Physical time (h)
c M1: advection solid, diffusion dashed
Signed salt flux (10^{-11} m/s)
Physical time (h)
d M1 closure; not total error
Salt budget residual (10^{-15} m)
Physical time (h)
