x(initial)=x(reservoir)=0.09; common accepted window only
Fixed analytical porosity is an assumption, not an ALE field
Analytical, kr=2.3e-3
Analytical, kr=1e-3
ALE reversible, kr=1e-3
ALE no dissolution, kr=1e-3
Geometric height (um)
Solid-equivalent height (um)
Solid NaCl (g/m2)
Evaporation change vs equilibrium film (ppm)
Soil interface mass fraction
Minimum crust porosity
Time since common activation reference (s)
